DETAILED ACTION

Response to Arguments

Regarding the double patenting rejection: The Examiner agrees with Applicant's arguments concerning the double patenting rejection. Upon reconsideration, after reviewing the differences pointed out in Applicant's arguments on page 2 of the Remarks of the paper submitted March 2, 2004, the double patenting rejection is withdrawn.

Allowable Subject Matter

Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-34 (contact lens and method for designing) are considered allowable since the prior art does not teach or suggest a contact lens having a physical design parameter determined by an objective wavefront measurement of a plurality of in-situ trial contact lenses each having a different value of the physical design parameter for a given correcting power.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2873

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
